CUSTOM-MADE

Advanced geospatial toolkit to edit complex formats

Examind SDK is a features library with standard data formats and geographic projections allowing to easily develop business applications integrating efficient GIS features.

- ▶ Projections, features, metadata and styles management
- ▶ Multidimensional formats handling
- ▶ Advanced formats integration

Modular offer

Development license
Deployment license
One year warranty
Warranty extension / year
Project feasibility study
Three support levels
Training

EXAMIND SUITE

- ▶ More than 10 years of R&D to develop Examind software suite
- ▶ Build on a transparent opensource core
- ▶ Interoperable: OGC standards-compliant
- ▶ Design for IOT and cloud infrastructures

FEATURES

- ▶ Collect, analyze and share heterogenous big datasets
- ▶ Modelize and automate geospatial workflows
- ▶ Deal with real time data collection

APPLICATIONS

- ▶ Earth observation portals
- ▶ Geographic, hydrographic, oceanographic and meteorological purposes
- ▶ Defense and marine applications
- ▶ National and international data infrastructures

... and all GIS data managers
